

A coincidence is a surprising thing that (1) ... to us. For example, two friends go shopping alone on the same day. When they (2) ... up afterwards, they discover that they've each bought an identical T-shirt. Many people (3) ... coincidences as significant or mysterious. But the simple (4) ... could be that friends tend to have (5) ... taste in clothes. In reality, life is (6) ... of coincidences, but normally we don't notice them. For example, in almost fifty percent of all football matches, two players (7) ... the same birthday. This seems surprising, given that there are 365 possible birthdays in the year. But most of these matches will be played without anybody being (8) ... that the coincidence exists. Unless your birthday is today or tomorrow, you don't generally go around telling people when it is. What's more, without realising it, you probably (9) ... into contact with lots of people born on the same day as you. But when a coincidence is (10) ... to your attention, it still seems amazing.
