

A recent survey has been analysing information about the time that people in the UK take off work because of illness. The study was carried (1) ... in 4,300 businesses around the country. The analysts looked (2) ... the number of absences, when they took place and the reasons given (3) ... them. It was found that Manchester was the city where people took most days off- an average of 11 days a year. People were off the least time of all in London (only 7 days (4) ... average). Employers also claimed that many workers chose to be absent when there was something good (5) ... television. (6) ... most employers thought their employees often did not tell (7) ... truth about why they were taking time off. Bosses said that they believed that less than 10% of (8) ... sick notes they received were genuine.
