

При выполнении заданий с кратким ответом впишите в поле для ответа цифру, которая соответствует номеру правильного ответа, или число, слово, последовательность букв (слов) или цифр. Ответ следует записывать без пробелов и каких-либо дополнительных символов. Так как на экзамене распознавание апострофа в бланках ответов будет затруднено, записывайте ответ в полной форме, например: donotknow, вместо don'tknow.

В заданиях, где нужно установить соответствие между двумя столбцами, ответ запишите в виде сочетания букв и цифр, соблюдая алфавитную последовательность букв левого столбца. Некоторые данные правого столбца могут использоваться несколько раз или не использоваться вообще. Например: A1B1B4Г2.

Если вариант задан учителем, вы можете вписать или загрузить в систему ответы к заданиям с развернутым ответом. Учитель увидит результаты выполнения заданий с кратким ответом и сможет оценить загруженные ответы к заданиям с развернутым ответом. Выставленные учителем баллы отобразятся в вашей статистике.

June and Malcolm Harding spent their life savings on their first home, and thought they were set for life. But just over a year later, June handed the keys back to the estate agent. Since then they've also sold most of their furniture. (1) \_\_\_\_\_

What started as a way to stop Kelly being bored in the summer holiday has become the focus of all their lives. She won her first competition after only 10 weeks of skating lessons. Soon after, Kelly's coach left Britain for Canada and her parting words changed the Harding's lives for ever. "Find the money to keep Kelly on the ice," she urged. "She'll go all the way to the top." From then on, there was no question — whatever it cost to make Kelly a winner, they'd find a way.

(2) \_\_\_\_\_ "I started skating when I was 10," — June said. "I saved all the money I could for lessons by doing errands for neighbours. But Mum and Dad were poor and when Mum saved to buy me boots, Dad said that it was a mere waste. I never skated again. I wasn't going to let that happen to Kelly." They had to take Kelly out of school so she could practise more. As she was still only fourteen, they had to guarantee the local authorities she'd continue her studies until she was seventeen. (3) \_\_\_\_\_

"I worked out we only got £ 500 for £ 5,000 worth of furniture — but at least it paid for some more lessons," said June. "The only things we kept were the TV and video because we can never afford to go out. Luckily, our new accommodation is furnished. We took our car off the road because we can't afford to run it. We haven't had a phone for four months, or a holiday in six years." (4) \_\_\_\_\_

Despite being permanently poor, June and Malcolm have no doubt they're doing the right thing. "Just seeing Kelly on the ice, smiling and happy, makes it all worthwhile," her father said. "Even if she doesn't make it she'll have had the opportunity thousands of girls haven't."

Kelly, now seventeen, was placed 13th in last year's junior championship and has won nearly thirty competitions so far. "I know I'm very lucky," she admits. (5) \_\_\_\_\_ Her coach, a former British champion, is convinced she'll go far. "I think she'll make the Olympic squad," she said. "Kelly is an exceptional girl — gifted and very hardworking."

(6) \_\_\_\_\_ It's unlikely that her mum will ever see her win, though, because she gets too nervous to watch. "People think we're mad giving up everything," continues June, "but we believe in our daughter... I'd do it all over again tomorrow."

*My life with CVD by Tony Wong*

§ 1. I had just started middle school and we all had to do a series of tests. I was taken to a room where a mysterious woman handed me an odd-looking picture made up of dots. "What number do you see?" she asked with a smile. I didn't know why she was smiling because there were a lot of dots to count. Once I got to about ten, she asked the same question. I didn't know what to say, so she gave me another picture which looked the same as the first. I got upset. "I don't see any numbers," I said. That was how I learnt that I had CVD, colour vision deficiency, or, as it's unfairly known by the general public, colour blindness. What most people would have seen in that test was a number made of pink dots which they were expected to pick out from a circular field of green dots. I just saw lots of grey dots.

§ 2. I'm not alone. It is estimated that about eight percent of men have some form of CVD. It's all down to genes, apparently, and scientists hope to cure it one day, although I can't say that I would be keen on any gene therapy. Personally, I don't feel like I 'suffer' from CVD.

§ 3. Generally speaking, people with CVD just adapt to the world around us. For example, when you get to the traffic lights, the key thing is not the colour but the order of the lights. Of course, with all the vandalism in my neighbourhood. I'm just happy if the traffic lights are working.

§ 4. Unfortunately, not everything is so clear cut. When my e-reader is recharging, the light is orange when it is charging and green when it is finished. That's great, except that both colours look more or less the same to me. A much better system would be the one that my electric razor uses. It flashes when it is charging and then stops when it has finished.

§ 5. Life is full of little frustrations like that. Because I see green and red as pretty similar, I do sometimes put on a top that doesn't go with my trousers.

§ 6. However, there are bigger problems that can occur when professionals don't take CVD into account. I once failed an exam at school because a key question related to a bar chart coloured red, green and blue. To me all of the rectangles looked almost the same. Similar problems still crop up in course books and exams today.

§ 7. Moments like that aside, in my own life, CVD has been more of an inconvenience than a problem. People like me live life just like anyone else. We can continue to do so as long as people in positions of responsibility take steps to prevent any problems before they occur.
