

При выполнении заданий с кратким ответом впишите в поле для ответа цифру, которая соответствует номеру правильного ответа, или число, слово, последовательность букв (слов) или цифр. Ответ следует записывать без пробелов и каких-либо дополнительных символов. Так как на экзамене распознавание апострофа в бланках ответов будет затруднено, записывайте ответ в полной форме, например: donotknow, вместо don'tknow.

В заданиях, где нужно установить соответствие между двумя столбцами, ответ запишите в виде сочетания букв и цифр, соблюдая алфавитную последовательность букв левого столбца. Некоторые данные правого столбца могут использоваться несколько раз или не использоваться вообще. Например: A1B1B4Г2.

Если вариант задан учителем, вы можете вписать или загрузить в систему ответы к заданиям с развернутым ответом. Учитель увидит результаты выполнения заданий с кратким ответом и сможет оценить загруженные ответы к заданиям с развернутым ответом. Выставленные учителем баллы отобразятся в вашей статистике.

Like most tourists, I enjoy taking photographs on holiday and can't wait to show them to friends and family when I get back. But whilst for me they represent treasured memories, to others they are more often than not simply a collection of boring, badly composed, out of focus pictures. So this year I decided to do something about this by booking myself on a trip to Rome which included photography lessons.

The first time I went to Rome, I remember thinking that it was a photographer's paradise with a fantastic photo opportunity lying around every corner. (1)___ Added to this was the fact that there were crowds of tourists everywhere, blocking all the best views. But this second time things were different. Antonio, my photography tutor, was on hand to give expert advice every step of the way.

The first thing Antonio told our group was that the secret to creating a good photographic image rather than just a snapshot is to first take a long look at what you want to photograph. For example, he said, you should consider the background just as much as you do the subject. (2)___ You can get unwanted figures out of your image simply by getting down on your knees to take a picture, for instance, or changing the angle of the shot.

Our first port of call was Piazza Navona, where Antonio gave us advice about how to photograph the Fountain of Neptune. (3)___ Then, he added that we should take the photo with the fountain slightly off centre.

Next, we headed off to the Pantheon, which was originally an ancient Roman temple. Along the way, I took the opportunity to photograph anything that caught my eye. The Pantheon itself is so huge that it is impossible to take a good photograph of the whole thing. (4)___ I tried out this technique by lying down on the floor and taking a picture of just one section of the great domed ceiling. I was pretty pleased with the results.

For the next couple of hours, we wandered around the historic centre visiting many of Rome's architectural highlights. (5)___ And I felt that I was really able to appreciate the sights as I had to look at each one so carefully in order to get good pictures.

We finished off our first morning tour with a stop at a traditional Roman street café. After all the hard work and walking I'd done, a large Italian ice cream seemed like the perfect reward! (6)___ It felt like a whole new world had opened up to me. I learnt an incredible amount over the next two days, as well as having a thoroughly enjoyable time in one of the world's most beautiful cities.

§ 1. There are many different theories about dreams; however, the science of dreams is not exact. In ancient times, people believed that when we dreamt we entered another world which was real. As science and medicine became more advanced, different theories started to come out. Some scientists believe that dreams are just verbal, visual and emotional stimuli with no apparent meaning. However, others believe that dreams are important for our mental well-being. The leading psychiatrist, Carl Jung thought that analysing our dreams provides us with a way to think more deeply about our lives and solve problems.

§ 2. For centuries, people have believed that dreams have a deeper meaning. For example, many of us dream that we are falling and suddenly we wake up. Experts say this dream means we are feeling anxious and insecure or we feel we have failed in achieving a goal. Another popular dream is that of being chased; this means we are trying to escape our problems. Also, dreams about losing our teeth are believed to show that we are worried about our physical appearance.

§ 3. There has been a lot of research done into controlling dreams and this has led to the term lucid (осознанный) dreaming. Lucid dreaming happens when you **are aware** that you are dreaming and are able to control what happens in your dream. This is an **amazing** skill but it is also extremely difficult to do and not many people are able to learn it. Lucid dreaming can be a way to experience the strange world of your dreams but it is also believed to help personal development and improve your problem solving skills.

§ 4. Some people are able to see future events through their dreams. There is the case of the man who dreamt that he took his son on a camping trip and his son died near a lake. Some time after he had had the dream, the man and his son were invited on a camping trip. Then, at a certain time during the trip, the man remembered his dream and noticed that everything was the same as in his dream; the boy was standing near a lake looking down at pebbles. The man quickly grabbed his son and took him to safety.

§ 5. There is still a lot of research taking place into dreams, and it will be some time before we are able to really understand the strange dream world that we enter every night. Dreams allow us to experience things that would not be possible in real life, and by analysing our dreams we can learn more about ourselves.
