

При выполнении заданий с кратким ответом впишите в поле для ответа цифру, которая соответствует номеру правильного ответа, или число, слово, последовательность букв (слов) или цифр. Ответ следует записывать без пробелов и каких-либо дополнительных символов. Так как на экзамене распознавание апострофа в бланках ответов будет затруднено, записывайте ответ в полной форме, например: donotknow, вместо don'tknow.

В заданиях, где нужно установить соответствие между двумя столбцами, ответ запишите в виде сочетания букв и цифр, соблюдая алфавитную последовательность букв левого столбца. Некоторые данные правого столбца могут использоваться несколько раз или не использоваться вообще. Например: A1B1B4Г2.

Если вариант задан учителем, вы можете вписать или загрузить в систему ответы к заданиям с развернутым ответом. Учитель увидит результаты выполнения заданий с кратким ответом и сможет оценить загруженные ответы к заданиям с развернутым ответом. Выставленные учителем баллы отобразятся в вашей статистике.

It was back in 1995, when my husband Eric was working as a rubbish collector for the local town council, that I first got the idea of recycling clothes. He would frequently find bags of perfectly good clothes just thrown into the rubbish. I wondered if I would be able to do something with them which would make money for me and perhaps even help the community at the same time. I decided to give it a try.

The first thing I did was to place an advertisement in the newspaper inviting people in the neighbourhood to bring me their second-hand clothing, shoes and bedding instead of throwing them away. Within a week, our garage was bursting with black plastic bags. (1)___ This kept me busy for weeks.

At the same time, I was also looking for a shop to rent where I could sell these items. (2)___ But it wasn't until I contacted Adventure, an organisation which helps people to set up their own businesses, that I finally got the assistance I needed. They helped me find the right shop and gave me advice about getting a business loan to get me started. That's how *Second Best* was born.

For my idea to work, I was going to need a steady supply of clothes. The town council already had recycling bins for paper, glass and the like. (3)___ I was able to make arrangements to have the clothes collected and brought to my shop, where I had installed laundry facilities to cope with all the washloads I needed to do!

It wasn't only making money in the shop that interested me, though. I was still eager for the community to benefit from my idea, too, so I started to find ways that the large quantities of very old or damaged clothing that I couldn't sell in the shop could be put to use. (4)___ Some of the old clothing is now turned into bandages for hospitals, for example, while one school in the area asks for old jeans to make into lunch bags.

Adventure believes in encouraging people by giving an annual Special Merit Award to the most successful new business they have helped. (5)___ Not only had I helped so many others, they said, but I had also had to overcome a difficulty. In 2000, my shop had been destroyed by fire and I had had to start the business all over again from Scratch.

Getting back on track wasn't easy. Not only did I have to search for another shop to rent, but I also had to spend time building up new stocks of clothes, as nearly all of the original stock had been destroyed. (6)___ Otherwise, I would have been forced to call it a day.

Today, twelve years after I first started up, *Second Best* is a very successful small business.

§ 1. I was struggling to get by. I had just moved to Gloucester from London and had taken the first job that I was offered. I was barely earning enough to do my weekly shopping and I wished I had the money I used to make back in London. As I couldn't afford my own place, I had settled for my best friend's sofa, but the hard cushions and backaches had made me realise that, above all else, I longed for my old flat — my little peaceful place! I soon began to wonder if moving had been the right decision. That's when I heard a radio advert that changed my life...

§ 2. "Looking for your own place but worrying about the cost? Worry no more! You could live free for a year in the 'Enviro-House', one of Britain's first environmentally friendly homes. We're looking for a resident to live rent-free! For more details, visit [www...](#)" My friend had heard about this house and he thought that it would be very difficult to stick to an energy conserving routine. I should have considered this, or at least have been **concerned about** how many "guests" would actually pass through. But, as I sat on the painfully uncomfortable sofa, the only thing in my head were the words... "Live free, live free."

§ 3. I visited the website and entered the competition to become an 'eco-housemate'. I was one of three lucky finalists who had to battle it out for a place in the house live on local television. The other finalists were keen environmentalists with a passion for the issue, unlike me. I had never really given it much attention to be honest, as it was **insignificant** to me. I joked with the audience that the only way I was going to learn was if they sent me to the house! They agreed. As I walked through the front door of the house, I had worrying visions of living in a futuristic house, full of high-tech gadgets. I certainly wouldn't have been surprised to see a number of complex-looking machines. However, I was shocked to see the house was completely normal. In fact, it looked just like any other house. This eased my mind a bit, as I rarely find modern technology easy to understand, I prefer the simple life. The heating system, water supply and electricity all worked in exactly the same way as they would in any other house in the UK. The only difference was that the house used renewable sources of energy. Solar panels and small wind turbines were used to provide the hot water and electricity.

§ 4. My experiences in the house made me look at the way I had lived my life in the past and how I should live it in the future. For example, it's neither difficult nor time-consuming to recycle, as long as you make it part of your daily routine. I also changed my perspective on which energy sources to use. It's very simple to make those all-important changes we just need the motivation to make them.
