

При выполнении заданий с кратким ответом впишите в поле для ответа цифру, которая соответствует номеру правильного ответа, или число, слово, последовательность букв (слов) или цифр. Ответ следует записывать без пробелов и каких-либо дополнительных символов. Так как на экзамене распознавание апострофа в бланках ответов будет затруднено, записывайте ответ в полной форме, например: donotknow, вместо don'tknow.

В заданиях, где нужно установить соответствие между двумя столбцами, ответ запишите в виде сочетания букв и цифр, соблюдая алфавитную последовательность букв левого столбца. Некоторые данные правого столбца могут использоваться несколько раз или не использоваться вообще. Например: A1B1B4Г2.

Если вариант задан учителем, вы можете вписать или загрузить в систему ответы к заданиям с развернутым ответом. Учитель увидит результаты выполнения заданий с кратким ответом и сможет оценить загруженные ответы к заданиям с развернутым ответом. Выставленные учителем баллы отобразятся в вашей статистике.

But if you catch yourself thinking such things, it's important to do something about it. You can change your view of life, according to psychologists. It only takes a little (3) ..., and you'll find life more rewarding as a result. Optimism, they say, is partly about self-respect and confidence but it's also a more positive way of looking at life and all it has to (4) ... . § 1. If you walk into any bookstore there is an entire shelf dedicated to books about people who decide to change their lives by relocating to another country. I used to laugh at those kinds of books and wonder why anyone would put themselves through the discomfort of going to live in a foreign country — all in search of a simple life!

§ 2. One day, instead of walking straight past this section, I selected a book to read on the train. It was about an accountant who realised one day how boring her life was, so she bought a ticket to Italy. After reading the book, the idea of moving abroad had lodged (засела) itself in my mind and was turning into a magnificent possibility.

§ 3. I resigned from the hospital where I worked, sold my apartment and moved to the region of Umbria in Italy. Once there, I rented an apartment and hired a little motorbike. I loved sampling the local cuisine and I signed up for a short cooking course. A very charming local man called Francesco ran the course. Each lesson not only did we learn how to prepare an authentic Umbrian dish, we were also rolling around the floor in fits of laughter, since Francesco was a natural storyteller and we enjoyed his talent for imitating people.

§ 4. I also took a three-month Italian language course. It is fair to say that my attempts at cooking were more successful than my attempts to acquire a new language. I tried hard, however, and after a few weeks of lessons I actually had a short conversation with a local — OK, I only asked for directions to the train station. In my mind, though, this was a triumph of communication and I was satisfied with my modest progress.

§ 5. It was at one of these language classes that I heard a fellow student, John, mention that his neighbour, Sandro, was moving to Rome and selling his farmhouse very cheap. John said he wished he had the money to purchase it himself, as the property was sure to **be snapped up** soon. I couldn't believe that it cost less than half the amount that I had sold my tiny apartment for. Would I dare to copy the writers of all those books? I had to go and have a look, of course. The farmhouse was located on the top of a hill, and although it was very **run-down**, it possessed charm. I bought it straight away.

§ 6. The project wasn't without its difficulties, though. The farmhouse was collapsing in several places. My first priority, therefore, was to hire some local workers to add supports to the building. I also strengthened the foundations, installed a new kitchen and renovated the rest of the property. In the end, all the cost and effort were worthwhile, because I felt I belonged here as much as I did anywhere in the world, and I was determined to make it my home. I must say I sometimes look at my collection of books on Italy and think I'd like to have a goal writing one myself I'd like to share my experience and let other dreamers out there know that the difficulty is worth it. I didn't quite find the simple life, but I did find what the Italians call the sweet life — *la dolce vita*.

Anne Carlisle explains the history and work of Britain's police detectives.

Way back in 1828, the world's first modern police force was created by Sir Robert Peel. The Metropolitan Police Force of London made its home at the famous Scotland Yard and quickly became the model for police forces around the world. But it would be another decade before the Detective Branch of Scotland Yard was set up. This branch later became the Criminal Investigation Department (commonly known as CID) and to this day remains the main police department in Britain responsible for major crime investigation.

Becoming a plain-clothes detective in the CID is no easy task. Firstly, a police officer needs to have served for at least two years as a uniformed officer. (1) \_\_\_ Once this period has been completed the officer can then apply to go to a detective training school. However, there's no guarantee they will be accepted.

In order to become a detective, an officer needs to possess a wide range of skills and qualities, the most obvious being complete honesty and good character. They also need to be highly observant and to have good judgement. (2) \_\_\_ An officer with all these skills could more than likely find themselves being accepted to train as a detective.

Most of these 'detectives-to-be' discover that the really hard work begins once they get to the training school. There, the officers receive intensive instruction in all areas related to solving major crime. For instance, they will have to learn about psychology, which will come in handy when they are questioning suspects and witnesses. Perhaps the most difficult subjects, though, deal with learning all about the modern scientific methods now used in crime detection.

Once our future Sherlocks have completed their initial training, they begin life as detective constables and start working on unsolved crime cases in the CID. Most of the work they do is not nearly as glamorous as it seems on TV and in novels. (3) \_\_\_ Not exactly fascinating work, but essential all the same.

Apart from having to do painstaking investigative work, detectives also have a lot of paperwork to deal with. (4) \_\_\_ Every detail of a crime and its investigation must be recorded. Most detectives find the amount of clerical work they have to do the most frustrating part of their job.

Nonetheless, it can be a very rewarding job; a detective gets great satisfaction knowing they have solved a major crime. However, a detective's job is still not over after a suspect has been arrested and charged. (5) \_\_\_ Only when the offender is actually behind bars is the detective's goal achieved. Then there's always the next case to tackle, of course.

In many ways, the detectives of today are similar to the ones of the past. Much of the work has hardly changed at all. Detectives still have to ask questions and find answers. (6) \_\_\_ Whether it is using computers or looking through a microscope, it all helps to get the crime solved. In the end, just like the detectives we avidly watch on TV, they are heroes doing everything in their power to get the bad guys off our streets.
