

При выполнении заданий с кратким ответом впишите в поле для ответа цифру, которая соответствует номеру правильного ответа, или число, слово, последовательность букв (слов) или цифр. Ответ следует записывать без пробелов и каких-либо дополнительных символов. Так как на экзамене распознавание апострофа в бланках ответов будет затруднено, записывайте ответ в полной форме, например: donotknow, вместо don'tknow.

В заданиях, где нужно установить соответствие между двумя столбцами, ответ запишите в виде сочетания букв и цифр, соблюдая алфавитную последовательность букв левого столбца. Некоторые данные правого столбца могут использоваться несколько раз или не использоваться вообще. Например: A1B1B4Г2.

Если вариант задан учителем, вы можете вписать или загрузить в систему ответы к заданиям с развернутым ответом. Учитель увидит результаты выполнения заданий с кратким ответом и сможет оценить загруженные ответы к заданиям с развернутым ответом. Выставленные учителем баллы отобразятся в вашей статистике.

§ 1. Believe it or not, I used to read *Flight International* every week from the age of eight onwards — my father, an aviation engineer, **encouraged** my early passion for planes but I never thought that one day I would be working on it as a journalist.

§ 2. *Flight International* is read by anyone with an interest in aviation. From pilots to manufacturers, technicians to air vice marshals, all are readers looking for the latest news in this sector. As news editor, I'm responsible for deciding what appears on the 20 news pages we produce each week. Aviation is one of the few truly global industries and we have a team of reporters around the world. When I left school, my **original** plan was to become an engineer. I studied aeronautical engineering at university but found the course rather unsatisfactory. At the time there was a huge recession on with few jobs going, and I was forced to look round for other options. I actually wrote to *Flight* and asked for a job. The then deputy editor advised me to do a course in journalism which had just been set up, which is what I did.

§ 3. I found the course useful not so much because it gave me a pretty good basic grounding in journalism, but mainly because it focused on several workplacements, which I was able to do at *Flight*. I wrote a few pieces and got my face known at the magazine. When the course finished there were no jobs available on *Flight* so I went off and worked for an aviation newsletter. After a year or so the technical reporter at *Flight* moved to another job and I was in. The great thing for me about working here has been the chance to ask people questions about something I'm genuinely interested in, and to combine it with my other passion, travel. After a couple of years I was offered a job in Munich in Germany.

§ 4. It was fantastic timing as the aviation industry in eastern Europe was just opening up and I got to report on it and see the region. From there I went to Singapore, which again was an extraordinary experience. I got to fly over the Far East, visiting factories, meeting fascinating people and doing interviews, and to be honest I would have been happy to stay there a bit longer.

§ 5. However, jobs like this don't come up very often — the last news editor stayed ten years - and so when I was offered it, I couldn't really say no. Although I'm much more office-based now, I still go to the big air shows. In some ways I was getting a bit tired of living out of a suitcase, although I still get a thrill when I take my seat on a new plane for the first time. A37. 1. Housewife and grandmother

I went down a cliff to raise money for charity. It was an enormous challenge as I'm actually quite afraid of heights. It was only really the moment of going over the edge that was difficult: after that it was very easy. You just have to get into the rhythm and not go too fast. My son is really keen on climbing and some of his friends from his university

climbing club set everything up and organised the whole event. There were about twenty of us who did it and between us we raised well over the target amount.

2. Lawyer

I ran a triathlon and managed to get over 50 people to sponsor me. I had to train for months and it was really hard work but well worth it. I actually enjoyed the training more than the final event because on the day the weather was terrible. In the months running up to the event I followed a very strict regime and it felt good to be working towards such a specific goal. Knowing that I was going to be able to give a large donation to charity made me even more determined to do it. It was such a positive experience I'm going to do it again next year.

3. Environmental consultant

I cycled from L.A. to Quito last spring. All my family thought I was mad but I love cycling and I knew it would be an amazing way to see lots of really interesting places. I managed to raise quite a bit of money for charity through sponsorship although that wasn't my main, objective. I turned 30 in March and I really wanted to be doing something totally different rather than just sitting at my desk in the office. I wanted it to be something I could look back on when I am older and feel proud of. The fact that I was able to do something to help those less well off than me at the same time, well that made it even better.

4. Retired primary school head teacher

We used to make a big effort to get the children involved in charity events as I think it helps raise their awareness of world events and the fact that in many places there are people, particularly children like themselves, who live in very different circumstances to them. I think they get a great sense of satisfaction too from knowing that they are able to do something to help. Each year we had a special day; where all the children paid a small amount of money and then came to school for one day in their own clothes and not in school uniform. We also regularly held parties where the children were encouraged to donate old toys and books and things which we then sold. All the money we made went to our chosen charity.
