

При выполнении заданий с кратким ответом впишите в поле для ответа цифру, которая соответствует номеру правильного ответа, или число, слово, последовательность букв (слов) или цифр. Ответ следует записывать без пробелов и каких-либо дополнительных символов. Так как на экзамене распознавание апострофа в бланках ответов будет затруднено, записывайте ответ в полной форме, например: donotknow, вместо don'tknow.

В заданиях, где нужно установить соответствие между двумя столбцами, ответ запишите в виде сочетания букв и цифр, соблюдая алфавитную последовательность букв левого столбца. Некоторые данные правого столбца могут использоваться несколько раз или не использоваться вообще. Например: A1B1B4Г2.

Если вариант задан учителем, вы можете вписать или загрузить в систему ответы к заданиям с развернутым ответом. Учитель увидит результаты выполнения заданий с кратким ответом и сможет оценить загруженные ответы к заданиям с развернутым ответом. Выставленные учителем баллы отобразятся в вашей статистике.

Wayback in 1828, the world's first modern police force was created by Sir Robert Peel. The Metropolitan Police Force of London made its home at the famous Scotland Yard and quickly became the model for police forces around the world. But it would be another decade before the Detective Branch of Scotland Yard was set up. This branch later became the Criminal Investigation Department (commonly known as C.I.D) and to this day remains the main police department in Britain responsible for major crime investigation.

Becoming a plain clothes detective in the C.I.D is no easy task. Firstly, a police officer needs to have served for at least two years as a uniformed officer. (1)___ Once this period has been completed the officer can then apply to go to a detective training school. However, there's no guarantee they will be accepted.

In order to become a detective, an officer needs to possess a wide range of skills and qualities, the most obvious being complete honesty and good character. They also need to be highly observant and to have good judgement. (2)___ An officer with all these skills could more than likely find themselves being accepted to train as a detective. Most of these "detectives-to-be" discover that the really hard work begins once they get to the training school. (3)___ For instance, they will have to learn about psychology, which will come in handy when they are questioning suspects and witnesses. Perhaps the most difficult subjects though deal with learning all about the modern scientific methods now used in crime detection.

Once our future Sherlocks have completed their initial training, they begin life as detective constables and start working on unsolved crime cases in the C.I.D. Most of the work they do is not nearly as glamorous as it seems on TV and in novels. (4)___ Not exactly exciting, but essential duties all the same.

Apart from having to do painstaking investigative work, detectives also have a lot of paperwork to deal with. (5)___ Every detail of a crime and its investigation must be recorded. Most detectives find the amount of clerical work they have to do the most frustrating part of their job.

Nonetheless, it can be a very rewarding job; a detective gets great satisfaction knowing they have solved a major crime. However, a detective's job is still not over after a suspect has been arrested and charged. (6)___ Only when the offender is actually behind bars is the detective's goal achieved. Then there's always the next case to tackle, of course.

§ 1. G. P. Taylor is the Yorkshire vicar {приходской священник} who sold his motorbike to self-publish 2,000 copies of his first novel, Shadowmancer, a book that was subsequently picked up by publishers Faber & Faber and got to number one in the New York Times bestseller list. His novels bring to one's mind dark, chilling worlds in which the supernatural threatens to take over, yet he describes his life as a writer in purely functional terms. He is able to name the exact day that he became a novelist: March 21, 2002. 'It was one of those fruitful moments in my life. Harry Potter was becoming very popular. And I thought, "This woman's written a book. I might write one."'

§ 2. 'I got a copy of Harry Potter, counted the number of words that were on the page, measured the width of the margin {поля}, counted the number of chapters in the book, how many pages were in the book and set my computer screen up so that it would have 468 words on the page. My chapters were the same length as the Harry Potter chapters; I thought, "This must be how you write a book."' Shadowmancer is a simple and uncomplicated fantasy — and Taylor, who is his own most effective critic, makes few further claims for the novel. 'It's a great story, but if I'd written it now, it would be a completely different book. In many ways, it's a clumsy classic. There are a lot of things in there that I would get rid of. And yet, I think that's the big attraction. It's because it's an incredible adventure story, written by a non-writer, just a storyteller.'

§ 3. Taylor returns to this distinction between writing and storytelling a number of times, distancing himself from grand and lofty ideas of the novelist's purpose. He describes himself as a 'fairly uneducated kid' who ran away to London as a teenager. He is uncomfortable talking at any length about favourite novels or influences beyond J. K. Rowling: 'I have not read all that many books. I'm not a very literate person.'

§ 4. Taylor was a rock-music promoter in his twenties and remains a showman, happiest in front of a crowd. He describes the talks he gives in schools and at festivals, dressed up as a sea captain or as an 18th-century highwayman in a long black coat. 'You're using your face, you're using your body, you're acting out what you're doing.' The business of putting his thoughts in writing can be problematic in comparison. As a storyteller, in order to demonstrate shock or alarm to an audience he will 'pause between sentences and show a wide-eyed, staring face. But to describe that in English...'
